COOL HUNTER GUIDE AUGUST 6 - AUGUST 12

FUEL

If you find yourself walking along the cobblestone streets of Faneuil Hall, make sure you take a moment for a liquid break at **MIJA CANTINA & TEQUILA BAR**. Their patio is the perfect place to enjoy a carefully crafted margarita with a side of people watching. On especially warm days, make sure you try one of their frozen beverages. The "Lava Flow" aka a frozen pina colada with raspberry puree served in the world's biggest glass, is my personal favorite.

MICHELLE BRANCH. I know what you're thinking... but she's back with a vengeance. Branch's new album *Hopeless Romantic* is edgy yet sophisticated. After taking a decade hiatus from record producing, Branch has shed her teen angst sound and transitioned into a complex modern artist.
